Description

Pipeline designed for multi-branch pipeline job creation through dsl file instead of manual creation through Jenkins UI

Plain text [Preview](#)

Discard old builds

Strategy

Log Rotation

Days to keep builds

if not empty, build records are only kept up to this number of days

7

Max # of builds to keep

if not empty, only up to this number of build records are kept

10

Advanced

☒ Do not allow concurrent builds☐ Abort previous builds☐ Do not allow the pipeline to resume if the controller restarts☒ GitHub project

Project url

<https://github.com/eduardoftmoreira-citeve/jenkins-pipeline>

Advanced

☐ Pipeline speed/durability override☐ Preserve stashes from completed builds☐ This project is parameterized☐ Throttle builds

Triggers

Set up automated actions that start your build based on specific events, like code changes or scheduled times.

☐ Build after other projects are built☐ Build periodically☐ GitHub hook trigger for GITScm polling☐ Poll SCM☐ Trigger builds remotely (e.g., from scripts)

Pipeline

Define your Pipeline using Groovy directly or pull it from source control.

Definition

Pipeline script from SCM

SCM

Git
